Funds raised will go to the Marathon of Hope Cancer Centres Network. The Marathon of Hope Cancer Centres Network is the realization of a long-standing vision of the Terry Fox Research Institute. Inspired by Terry Fox and his Marathon of Hope, the network represents a powerful collaborative platform that aims to close the gap between research in the lab and patient care in the clinic. Just as Terry Fox united Canadians with his run and dream to end cancer, the Marathon of Hope Cancer Centres Network aims to unite our cancer researchers to pursue that same goal with precision medicine.
